

Professional Safety & Loss Control Consultants (Part Time)

Date Submitted: January 12, 2017
Hiring Organization: Integrated Loss Control, Inc. (ILC)
Location: Minneapolis, MN
Compensation: Based on experience and skill sets

Description (Part-Time Opportunities): ILC, a well-established (24+ years) Shoreview, Minnesota, based consulting firm, is seeking **Part Time** individuals with the minimum listed qualifications to join us as a member of our professional team.

We are looking for qualified, experienced professionals who may be semi-retired or considering working less than full-time at this point of their career. We are building a TEAM of experienced individuals who can work on an on-call basis and/or service a measured client book of business. Our Part-Time TEAM members will supplement our full-time TEAM members and other Part Time professionals (supporting each other). It is our goal to create a pool of experienced, knowledgeable professionals from relevant, yet differing backgrounds. This will expand ILC's capabilities and allow ILC and its TEAM members to grow and be rewarded for the quality service provided to our clients. ILC will be further recognized by its peers and our current and future clients as the "Trusted Resource of Choice".

The consultants will perform a wide range of hands-on consultative services to a diverse client base and as appropriate, provide specialized customer services to assigned client accounts to help them meet their needs.

We offer competitive compensation and an excellent work environment. If you are a qualified candidate with a desire to remain active and grow professionally, want to be rewarded for your efforts and wish to make a positive contribution to the organization you join and the clients you support, then we would like to talk to you.

Qualifications: We are looking for individuals who have backgrounds and relevant experience in the following areas:

- Not required in all cases, Associate's, Bachelor's or Master's degree in related field (science, engineering, safety, risk management, etc.) – ASP, CSP, CIH, ARM and other relevant certifications
- 5+ years of relevant hands-on experience in a manufacturing, construction, insurance (wc, auto/fleet), public sector or related consulting capacity
- Experience developing and auditing relevant programs
- Conducting program audits, providing solution options as necessary
- Developing and conducting training to various audiences in a wide range of industry types
- Ability to work as part of a team and with little or no immediate supervision
- Strong customer service skills
- Must have extensive and detailed working knowledge in area of expertise (ex: OSHA, MSHA, NFPA, Life Safety Code, industry best practices, ergonomics, industrial hygiene, etc.)
- Must be extremely proficient in writing and public speaking skills

In addition, the candidate will have the following skills:

- Excellent phone/communication/grammar skills
- Strong background using computers and proficient in MS Word and MS Office applications (Excel, PowerPoint, Outlook)
- Ability to work with & learn software applications
- Must be trustworthy, dependable, flexible and creative
- Accuracy & attention to detail a must
- Ability to handle efficiently, a variety of responsibilities & projects
- Self-starter and manage work load and meet deadlines, hold matters in strict confidence.
