

### **Outsourcing Services - Health & Safety Program Support**

Whether you are in General Industry, Construction, Municipality, Transportation, Hospitality, etc., are you finding it difficult to fill a safety and compliance position within your operation? Or, are you spread too thin with other responsibilities that may cause safety and compliance to take a backseat? Let Integrated Loss Control, Inc. (ILC) be your safety and compliance resource to help keep your operation compliant! We can assist for the short term or longer as needed!

ILC can help by providing a predefined level of support to your Health and Safety Program.

#### **Choose the help you need:**

1. Improve Workers' Compensation Experience Modification rate and/or OSHA Incident rate.
2. Assist with establishing an Annual Health & Safety Workplan.
3. Conduct facility/location physical hazard inspection walk-throughs.
4. Review applicable OSHA recordkeeping, making sure records are current and complete.
5. Meet with the designated management representative to ensure expectations are being met.
6. Conduct required Industrial Hygiene Monitoring (Employee Noise and Air Exposures).
7. Identify any OSHA requirements that may have changed due to current operations or that have been published which impact operations.
8. Conduct safety related training on predetermined topics.
9. Assist with the review of Safety Data Sheets and aid with updates as necessary.
10. Coordinate services available from other sources, such as insurance companies, would be provided to help ensure no duplication of services or unnecessary costs.
11. Provide guidance and technical support to the Safety Committee as requested.
12. Within the time allotted, develop any applicable health and safety compliance programs and provide the required training to supervision and employees.
13. Assist with coordinating, as appropriate, with state and federal agencies other services as may be needed.
14. Serve as a readily available resource for questions from the management or their designated representative.
15. Assist with OSHA inspections and/or citation abatement.
16. Aid with Third Party Safety Program (ISNetworld, BROWZ, etc.) development, reviews, and maintenance.
