

Loss Control Consultant

Date Submitted: March 30, 2022
Hiring Organization: Integrated Loss Control, Inc. (ILC)
Location: Shoreview, MN
Salary: Based on experience and skill sets

Description: ILC, a well-established (30+ years) Shoreview, Minnesota, based consulting firm, is seeking a full time individual with the listed qualifications to work as a key member of our professional team. The consultant will perform a wide range of hands-on consultative services to a diverse client base and as appropriate, provide specialized customer services to assigned client accounts to help them prevent and/or minimize losses. This position works out of our Shoreview office.

We offer competitive wages, an excellent work environment along with benefits for our full-time employees. If you are a qualified candidate with a desire to grow professionally, want to be rewarded for your efforts and wish to make a positive contribution to the organization you join and the clients you support, then we would like to talk to you.

Qualifications: The successful candidate will have the following qualifications, but not limited to:

- Associate's, Bachelor's or Master's degree in related field (science, engineering, safety, risk management) – ASP, CSP, CIH, ARM certifications or working toward certification desirable
- 5+ years of relevant hands-on loss control/safety compliance experience in a manufacturing, construction, insurance or consulting capacity
- Experience developing and auditing safety programs
- Conducting site hazard assessments, conducting incident investigations
- Analyzing workplace injury/illness loss drivers and rate performance and recommend service and solution options
- Developing content and conducting safety training to various audiences in wide range of industry types using various delivery formats
- Ability to work as part of a team and with little or no immediate supervision
- Mechanical and/or scientific aptitude a plus
- Strong customer service and care skills
- Must have extensive, detailed working knowledge in OSHA compliance, knowledge of other regulations such as MSHA, NFPA, ANSI, Life Safety Codes a plus
- Must be extremely proficient in writing and public speaking skills
- Knowledgeable in the practical application and use of industrial hygiene methodologies and equipment - applicants with a background in industrial hygiene are encouraged to apply
- Experience with basic environmental compliance requirements a plus
- 1st Aid, CPR, AED trainer certification a plus

In addition, the candidate will have the following skills:

- Demonstrated leadership skills
- Excellent phone/communication/grammar skills
- Strong background using computers and proficient in MS Word and MS Office applications (Excel, PowerPoint, Outlook)

- Ability to work with & learn software applications
- Must be trustworthy, dependable, flexible and creative
- Accuracy & attention to detail a must
- Ability to handle efficiently, a variety of responsibilities & projects
- Self-starter and manage fast pace and meet deadlines, hold matters in strict confidence.
